## SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	:	For personal protection see section 8. Ensure adequate ventilation. Evacuate personnel to safe areas. Material can create slippery conditions.
Environmental precautions	:	If the product contaminates rivers and lakes or drains inform respective authorities.
Methods and materials for containment and cleaning up	:	Prevent further leakage or spillage if safe to do so. Remove all sources of ignition. Soak up with inert absorbent material. Non-sparking tools should be used. Ensure adequate ventilation. Contact the proper local authorities.

## SECTION 7. HANDLING AND STORAGE

Advice on safe handling	<ul> <li>For personal protection see section 8.</li> <li>Smoking, eating and drinking should be prohibited in the application area.</li> <li>Use only with adequate ventilation.</li> <li>In case of insufficient ventilation, wear suitable respiratory equipment.</li> <li>Avoid spark promoters. Ground/bond container and equipment. These alone may be insufficient to remove static electricity.</li> </ul>
Conditions for safe storage	<ul> <li>Avoid contact with skin, eyes and clothing.</li> <li>Do not ingest.</li> <li>Keep away from heat and sources of ignition.</li> <li>Keep container closed when not in use.</li> <li>Store in original container.</li> <li>Containers which are opened must be carefully resealed and kept upright to prevent leakage.</li> <li>Keep in a dry, cool and well-ventilated place.</li> <li>Keep in properly labelled containers.</li> <li>To maintain product quality, do not store in heat or direct sunlight.</li> </ul>
